Proforma to submit a pre-proposal

Before submitting the detailed project proposal to the University, the investigator/institution is advised to submit a pre-proposal (the project idea) for consideration. After receiving comments from the University on the pre-proposal, the detailed proposal may be submitted. However, approval to the pre-proposal (the project idea) does not guarantee approval to the final proposal. The pre-proposal should cover the following points and should not exceed 500 words.

1. Title of the project proposal
2. Name of the Institution where the work will be carried out.
3. Name of the Principal Investigator and Co-investigators.
4. Need and Objective of the project. How it is consistent with the mandate of RGSTC.
5. Methodology.
6. Duration of the project.
7. Approximate cost of the project.
8. What is the scope of the project? What end results and specific deliverables are expected?
9. Why do you feel the necessity to undertake this work?
10. Who will be benefited by the proposed work and how? What is the scope for its replication/scale up?
