

## Essay Writing Competition on World Environment Day at Dr. PDKV NCC Sub-Unit AKOLA

Date:- 29<sup>th</sup> May 2023

Place:- Dr. PDKV NCC SUB UNIT, AKOLA

The Essay Writing competition aimed to raise awareness among participants and the wider community about the importance of environmental preservation and sustainable practices. The essay writing competition occurred on May 29th, to commemorate The World Environment Day under MERI LIFE MISSION, at Dr. PDKV NCC Sub-Unit AKOLA. Participating in such competitions helped cadets to develop a sense of responsibility towards the environment.

Theme and Guidelines:

The theme for the essay writing competition was "Preserving Our Planet: Sustainable Actions for a Greener Future." Participants were required to write an essay highlighting the current environmental challenges, proposing sustainable solutions, and emphasizing the importance of individual contributions towards a greener future. The topics given to participants were:

**1. Say No To Single Used Plastic 2. Adopt Sustainable Food Systems**

**3. Adopt Healthy Lifestyles 4. Animals Rights and Experimentation**

The essay writing competition successfully stimulated awareness and interest in environmental preservation. Participants demonstrated their understanding of environmental challenges and proposed feasible solutions with creativity and passion. The competition acted as a catalyst to inspire individuals to take action, both individually and collectively, toward a sustainable and greener future.

The essay writing competition on World Environment Day was a remarkable event that played a crucial role in raising awareness about environmental preservation. By encouraging Cadets to address the critical issues we face today, the competition fostered a sense of responsibility and highlighted the potential for effective solutions on an individual level. Such initiatives contribute to the success of World Environment Day, inspiring Cadets to make a positive impact on the planet every day.
